THE ESSENTIAL READING LIST

(Foundations of Critical Thinking)

Thinking, Fast and Slow (Daniel Kahneman)

- The foundational text on System 1 vs. System 2 thinking.

Think Again (Adam Grant)

- The power of knowing what you don't know and the joy of being wrong.

How Minds Change (David McRaney)

- The surprising science of belief, opinion, and persuasion.

Biased (Jennifer L. Eberhardt, PhD)

- Uncovering the hidden prejudice that shapes what we see, think, and do.

The Untethered Soul (Michael A. Singer)

- A guide to observing the ego rather than being controlled by it.

Super Thinking (Gabriel Weinberg & Lauren McCann)

- The big book of mental models for better decision making.

Resource list provided by David H Sherrod, MBA, MCC.

THE NEURODIVERGENT LENS

(Understanding the Operating System)

Unmasking Autism (Dr. Devon Price)

- Discovering the new faces of neurodiversity and the power of authenticity.

ADHD 2.0 (Dr. Edward M. Hallowell & Dr. John J. Ratey)

- New science and essential strategies for thriving with distraction.

Divergent Mind (Jenara Nerenberg)

- Thriving in a world that wasn't designed for you.

WATCH & LISTEN

Watch **"Why 'Scout Mindset' is Crucial to Good Judgment"** Julia Galef (TEDXPSU).

Watch **"The Illusion of Truth" / "Overconfidence"** Veritasium (YouTube).

Listen **You Are Not So Smart** David McRaney

- A celebration of self-delusion and the science of reasoning.

ADVANCED LEARNING

Immunity to Change (Robert Kegan and Lisa Lahey)

- How to overcome the invisible barriers (and hidden competing commitments) that keep us from changing.

Project Implicit (Harvard University)

- A rigorous online test to measure your own implicit associations and biases. Visit implicit.harvard.edu

Wired To Dream: Coaching and Neurodivergence

- Course offered by Deanna Stull, ICF Certified Coach and AuDHD spectacular human.
